Grade - LKG | Theme - Expressing Myself

Principal's Message

"Community is about doing something together that makes belonging matter". ~Brian Solis

On behalf of the staff and management of Jain Heritage School, Whitefield, I welcome you all to the Academic year 2022-2023. We are really lucky to have wonderful children and their parents who will be alongside us and we are eagerly looking for their wholehearted support in all our endeavours.

As the Principal of the school, I feel honoured and privileged to be part of an educational institution where every stakeholder is a learner and every day is an opportunity to learn and discover. We look at ourselves as a community of learners, where everyone learns including our teachers, parents & staff.

Our staff fruitfully employ two diverse strategies that are of Love and Logic to foster a positive learning environment for all our students. Love and Logic may seem like two contrasting forces. While love helps nurture trusting relationships, where students feel respected, appreciated and loved by the teachers, logic helps develop in students' personal responsibility, self-control, good decision-making skills self-confidence, and character building with high moral values.

Your child's learning involves and revolves around an effective partnership between home & school. We know the stronger the partnership is the more our child will benefit.

Coordinator's Message

It is a pleasure to watch our tiny-tots getting adjusted in the new school environment. Few of them are already settled and few are still trying to find their comfort zone with us which is understandable. As we strongly believe in this: "Each child is unique"

This very important year promises to be filled with lots of learning, lots of discovery and a lot of fun!! In our classroom we strive for the love of learning to be the key to success. We want every student to feel safe, cared and excited when they come to school each day! As when children feel safe, they take risks, ask questions, make mistakes and learn to trust, share their feelings. In our classrooms, the daily activities are carefully planned to encourage independence and self-confidence through large group, small group and one to one interaction. The focus of the curriculum centres on theme units. This is the core of our integrated learning which will be used to extend the learning in literacy and math.

Our children loved being in Activity area and exploring their classroom but now as time to start with the constructive learning and play. Slowly we are encouraging them to take the learning in their own pace. Few activities what they really enjoyed: circle time, listening games, story time, A Tooty Ta song.

Theme

Induction

- Introduction to The Classroom and The Class teacher
- Discovering Myself
- Recap of Name & Gender
- Recap of Parts of Body and Joints – hands and legs
- Recap of taking care of our body – Importance Of Exercise.
