## *Editor's Note*

Dear Students, Parents, and Esteemed Faculty,

As we step into December, our school is buzzing with excitement! This month, we focussed on fostering creativity and engagement through various activities. As we welcomed December, we want to take a moment to reflect on the incredible progress we've made so far this school year. It's inspiring to see our students diving into their studies, participating in extracurricular activities, and building strong friendships. The days grow shorter and the weather cools, let's continue to encourage our children to embrace their learning with enthusiasm and curiosity. As we embrace the vibrant colors and cooler weather of December, here's what's happening in our school community this month!

Thank you for your continued support, and happy reading!  
Warm regards,  
Editorial Team, Newsletter

## ANNUAL DAY CELEBRATION

The most awaited event of the academic year, the Annual Day Celebration at Jain Heritage School, Whitefield took place on 21st December 2024. As we reached the end of a year filled with learning, growth, and success, our school celebrated the achievements and talents of our students, teachers, and the entire school community. December, we were pleased to have you join us in commemorating the hard work, creativity, and dedication that made our school a unique place. The Annual Day was a day full of joy, inspiration, and entertainment, where we came together to honour the accomplishments of the year and look forward to even greater achievements in the future. The Annual Day was celebrated in two segments, one with the pre primary students in the morning and the second, the primary and secondary students in the evening.

Our students will take the center stage with a spectacular series of performances, including:

- Traditional Dances from various cultures
  - Musical Performances showcasing vocal and instrumental talents
- Dramatic Acts that blend humor, drama, mime and creativity

## OLYMPIAD

Olympiads are competitive exams designed to test and enhance students' knowledge, skills, and understanding across various subjects. These exams are often organized by national and international educational bodies and provide students with an opportunity to challenge themselves, compete with peers, and gain recognition for their talents.

In schools, Olympiads are usually conducted annually and can cover a wide range of subjects.

IMO was conducted in the month of December. The Mathematics Olympiad tests students' problem-solving abilities, logical reasoning, and mathematical thinking. It challenges students to think critically and explore complex concepts beyond the standard curriculum.

## KARATE CERTIFICATION EXAM

The karate exam for belt certification was recently conducted, with students progressing from white belt to yellow belt and from yellow belt to orange belt. A key component of the exam was the endurance training test, which challenged the participants to demonstrate both physical and mental stamina. During this segment, students were required to maintain their strength, speed, and accuracy throughout a series of demanding drills. The test assessed not only their technical skills but also their overall conditioning, focus, and perseverance. By the end of the competition, the participants had successfully showcased their readiness for the increased responsibilities and expectations associated with their new belt ranks.
